A **UtilityWeek** event

FUTURE NETWORKS CONFERENCE

18 MARCH 2025 | THE NATIONAL CONFERENCE CENTRE
COVENTRY ROAD, SOLIHULL, B92 0EJ

Utility Week's Future Networks Conference is a unique opportunity to raise your company's profile and highlight your approach to improving energy infrastructure across the UK at this critical time as industry works towards decarbonising the grid and government looks to increase investment in RII0-3. Bringing together 150+ network specialists from energy companies and their suppliers to work collaboratively towards 2030 net zero targets and build the networks of the future!

- **Hear directly from the industry leaders** about critical challenges and what collaboration is required from industry to achieve net zero by 2030
- **Position yourself as an active participant** in key industry innovation
- **Raise your profile** through an extensive digital marketing campaign
- **Gain industry exposure** in front of the core client base

KEY THEMES INCLUDE

Future strategy, investment & policy

Decarbonisation, renewables and the role of gas in CleanPower2030

Network reliability, resilience and security of supply

Flexibility, stakeholder engagement and customer centric investment

Local, regional and national planning to maximise assets

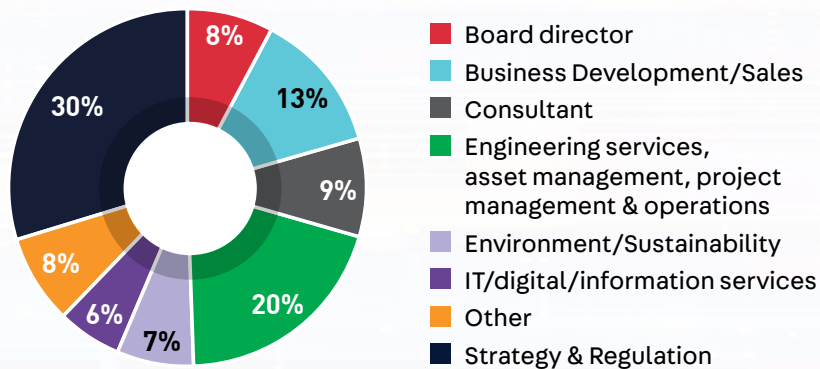

Innovative tech, digitalisation and data

“The 2024 conference enabled me to hear at first hand the work and ambition of the FSO, the reality that network is going to have to be built fast to deliver the energy transition and that flexibility across services, connections and charging will buy time to deliver. A great event for industry professionals to exchange ideas, set out future goals and coordinate strategy”

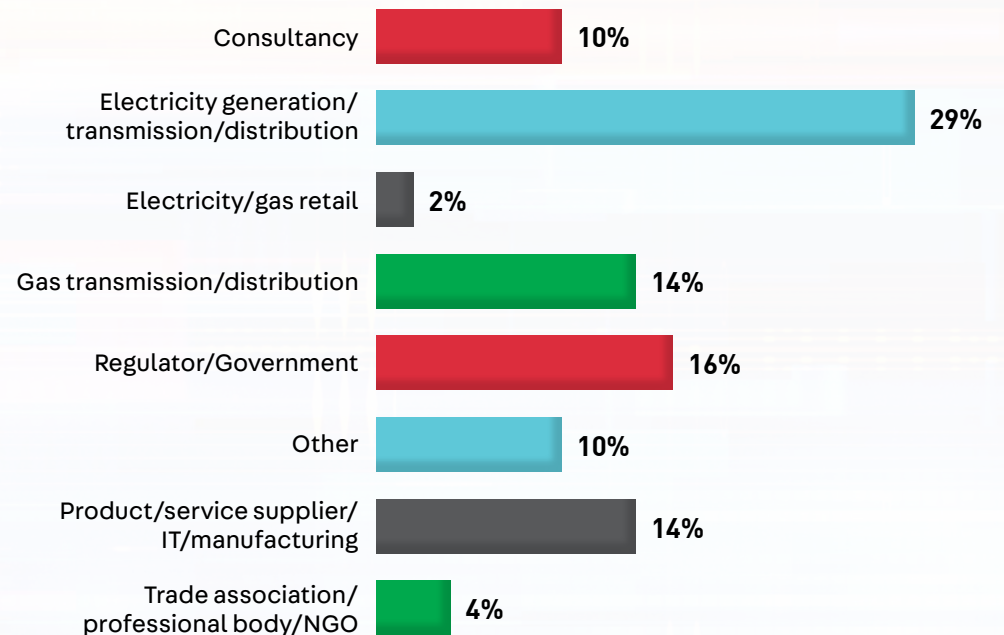

head of network and market development, SSEN
