A **UtilityWeek** event

FUTURE NETWORKS CONFERENCE

3 MARCH 2027 | ETC.VENUES MANCHESTER, PICCADILLY

Utility Week's Future Networks Conference returns 3rd March 2027 and for the first time will take place at a brand-new venue in Manchester, just a stone's throw from Manchester Piccadilly. The event will once again feature high quality content covering network strategy, policy, investment and innovation, uniting 150+ senior leaders from electricity and gas distribution and transmission networks as well as regulators, policy makers and external stakeholders.

Brand new for 2027 - we'll be hosting intimate roundtables throughout the day covering the future of gas, asset management, capital delivery, innovation and more. These sessions will unite 8-10 decision-makers to hash out industry challenges in a boardroom-style setting, helping industry to progress their internal strategies. We'll also run a 1-2-1 meeting programme at the event, giving industry an opportunity to meet the solution providers who can support them.

WHY SPONSOR? →

Drive the conversation for delivering a future-proofed energy network ...

- Align with your sector at a highly targeted gathering of network decision makers
- Raise your profile with the utilities who are actively seeking trusted partners
- Demonstrate your market presence as one of the select few solutions providers on the agenda
- Enhance your networking opportunities through 1-2-1 meetings on the day
- Amplify your message through Utility Week's trusted brand and reach including exposure to an 18,000 strong database and 29,900 strong social media audience
- Benefit from an extensive marketing campaign that gives you significant visibility

KEY THEMES INCLUDE →

Network strategy, policy and investment

The role of gas in the government's net zero future

Network asset management and resilience

Meeting increased energy demand

Local, regional and national strategic systems planning and collaboration

Solving the delivery challenge and accelerating the workforce

"Utility Week's Future Networks conference is a must attend for anyone with involvement in or engagement with all things energy networks - you get more insight and more discussion with key individuals in one place in one day, than is possible any other way"

Partner, Baringa

"The day raced by with an action-packed agenda full of expert speakers and panellists from a range of sectors and disciplines. The content was relevant and interesting with plenty of time for networking too."

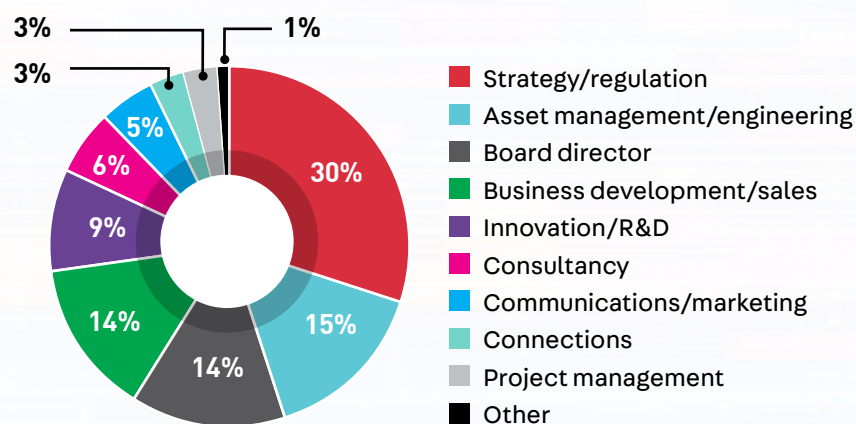

Head of Policy, Future Energy Networks

"I really enjoyed the Future Networks event organised by Utility Week. It was a great opportunity to network with lots of interesting people."

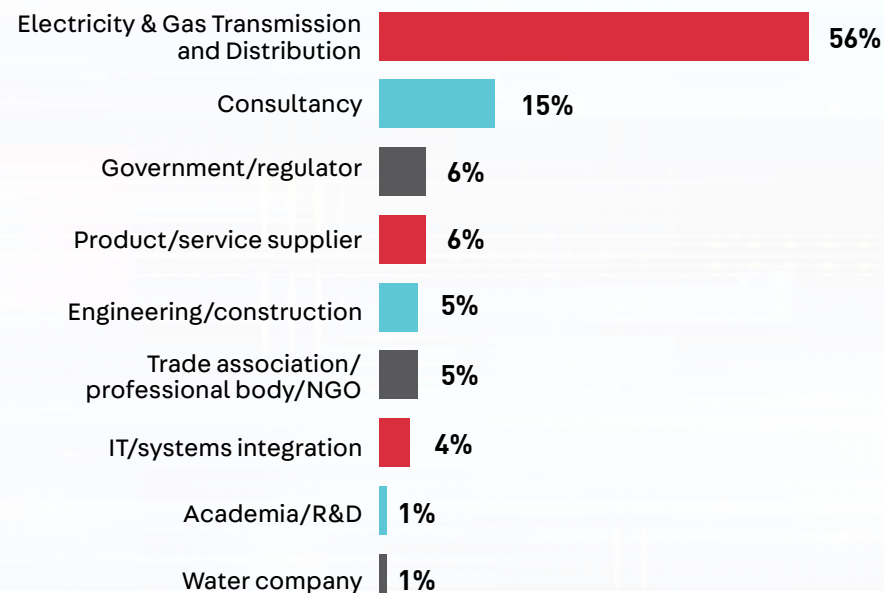

Technology Director, Cambridge Consultants
