Optimising wastewater assets, tackling pollution and delivering net zero

WASTEWATER 2026 CONFERENCE

27-28 January 2026 | National Conference Centre, Birmingham

14TH ANNUAL

As AMP8 delivery gains momentum across the water sector, environmental targets to reduce pollution and protect ecosystems remain at the forefront for every wastewater professional.

The **2026 WWT Wastewater Conference** offers a unique forum for UK water and sewerage companies to connect, collaborate and share progress on delivering the largest capital investment programme the sector has ever undertaken.

Across two days, regulators, project managers, innovators and industry leaders will present thought leadership, practical case studies and breakthrough strategies to reduce pollution, tackle storm overflows, and embed nature-based solutions into the mainstream.

The programme spans infrastructure, treatment, networks, and net zero—featuring expert insight on drainage and wastewater management plans, phosphorus removal, bioresource optimisation and more.

Join the discussion on how the sector can rise to the challenge of meeting government environmental targets and forge a clear path to a cleaner, more resilient future.

The agenda explores storm overflows, process emissions and phosphorus as key themes with the first day focused infrastructure and networks, while day two will dive into treatment and net zero.

We look forward to seeing you there.

Ruth Williams
Chief Correspondent
Utility Week / WWT

THEMES

Regulation and
investment

Smart networks, new
technology and
innovation

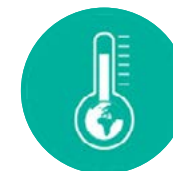

CSOs and pollution
prevention

Net zero, climate
change and NBS

Supply chain
collaboration

Bio-resources,
chemical removal and
process emissions

FEEDBACK

'An excellent array of topics and speakers, that kept the day flowing and when there was a break an excellent supplier hall awaited'

Team Manager, Scottish Water

'A really informative, well structured event. Lots of good discussions with industry peers and many connections to make post event'

Head of strategy & Business Development, Metasphere

'Wastewater 2025 conference is one of two must attend events for 2025 for anyone operating and servicing the UK Wastewater sector'

BDM – Head of Wastewater & Water Treatment, Xylem

'Interesting and thought provoking, a great chance to meet people in the industry and lots to take back to your day job'

Principal Asset Management Consultant, Stantec

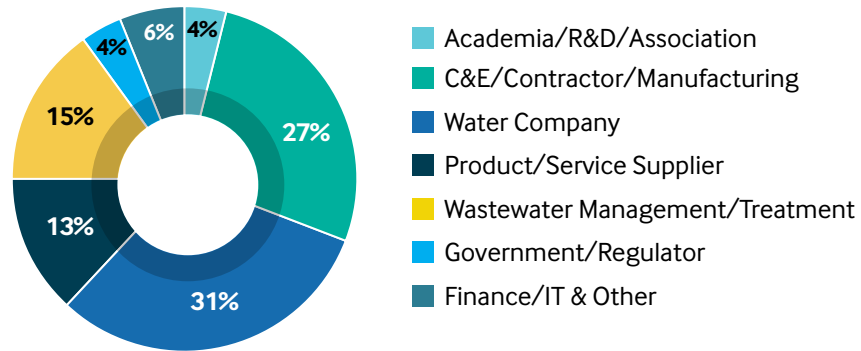

'As a newcomer to the WWT world - it was a great primer on the issues, an intro to many of the movers and shakers and a wake-up call to the challenges in the sector. Speakers, delegates and exhibitors all very friendly and helpful. Definitely value for money'

Consultant, Gurney Environmental

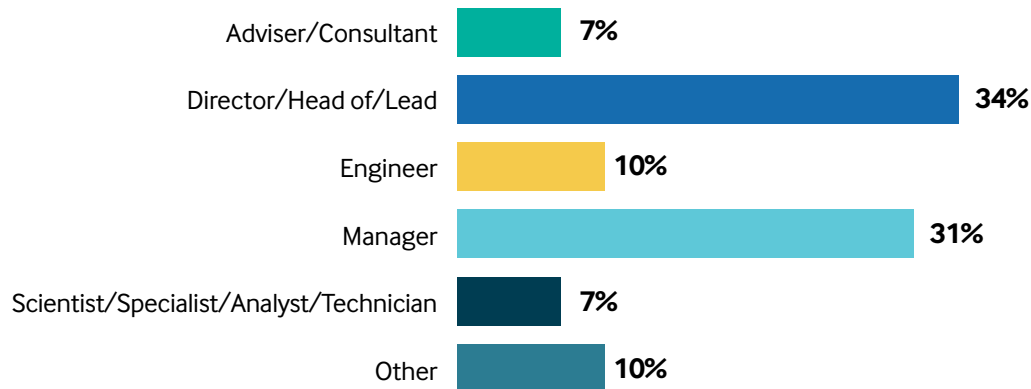

PREVIOUS ATTENDEES

TYPES OF ORGANISATION THAT ATTEND

JOB TITLES OF 2025 DELEGATES

WHO SHOULD ATTEND?

Directors, heads, leads and managers at UK WASCs responsible for:

- Waste
- Wastewater
- Wastewater asset management
- Wastewater networks
- Sludge
- Bioresources/biosolids
- Effluent
- Treatment
- P-removal/chemical removal
- CSOs
- Stormwater
- SuDS/NBS
- Unflushable/FOG
- Blockages
- Sewage
- Drainage
- Flood/flooding
- Pollution
- Environment
- Net zero
- Catchment
- Carbon
- Climate change
- Water recycling/reuse
- Optimisation
- Process emissions

In addition to regulators, consumer bodies, academics and solution providers within the wastewater space

ORGANISATIONS THAT ATTENDED IN 2025

WHY YOU SHOULD SPONSOR

- **LEAD** the conversation advancing wastewater innovation and investment
- **ENHANCED NETWORKING** opportunities with the UK's WASCs
- **HEAR DIRECTLY** from the industry leaders about critical challenges and what collaboration is required from the supply chain
- **POSITION YOURSELF** as an active participant in key industry innovation
- **RAISE YOUR PROFILE** through an extensive digital marketing campaign across multiple channels including email, web, social media and event app
- **GAIN INDUSTRY EXPOSURE** in front of the core client base
